

Tribal North Energy Services

Global Petroleum Show Awards

In 2016, Tribal North was nominated and selected as a finalist for the Aboriginal Engagement Award at the 2016 Global Petroleum Show in Calgary.

The nomination is a testament to the Company's success to-date and the tremendous effort that the partners have made in pursuing our original Vision of establishing a First Nation service company with a proven track record of operational expertise, execution and commitment to Aboriginal employment and training.

The Award recognizes the Company's unique structure and mandate, which has provided a compelling working model of how First Nations and Industry can work together and mutually benefit from meaningful commercial alignment and collaboration in the development of resources.

Aboriginal Engagement Award

The Aboriginal Engagement Award will celebrate and recognize an organization and local or national Aboriginal community that has demonstrated best efforts and success in engaging in consultation, business development opportunities or community development.
